PUBLIC WORKS QUARTERLY UPDATE:

Junior High Drive opened to the public on August 29, 2018. This is an engineering project connecting Lowell Street and Orion Avenue east/west to Parks Avenue. Signage and striping was completed yesterday; landscaping is scheduled.

North Spring Street Improvements: A sidewalk will be built on the bridge crossing over Interstate 8, and a return sidewalk will be built on Center Street. Improvements are scheduled to open in spring 2019. Phase 1 is all of the work from the I-8 on-ramp to the north; phase 2 work will cross the trolley tracks south on Nebo Drive. Public Works is working on lane adjustments when driving south on Spring Street.

Scooters: The City has met with Bird Scooters, asking them to reduce the number they leave at each drop location. Per Community Services Director Richardson, the scooter company's main goal is to keep the scooters near trolleys and transit. Data they are collecting will help refine future number of scooters dropped at each location.

CITY UPDATES:

Community Services Director Richardson gave the following updates:

The new club intends to provide gardening classes, projects, and lectures, and encourage support for the MacArthur Park community garden. The Garden Club will meet at the Adult Enrichment Center on the first Wednesday of each month beginning November 2018.
